

Welcome to BBapp

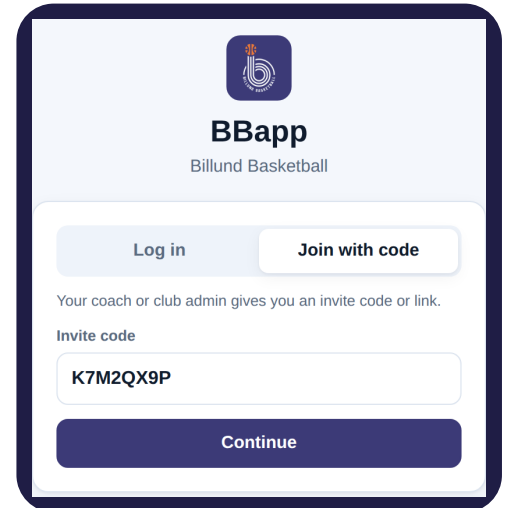

Billund Basketball's team app · set up in about 3 minutes

1 Open your invite

Your coach or the club sent you a personal **invite link** (and an 8-letter **invite code**). Tap the link on your phone. It opens BBapp with **Join with code** already filled in.

No link? Go to **gfezerinac7.github.io/BBapp**, tap **Join with code** and type the code.

Each invite is personal and can only be used once. Don't forward it.

2 Create your account

Tap **Continue**, then enter your **email** and choose a **password** (at least 6 characters). That's it: your account is now linked to your player profile, or to your child if you are a parent.

Next time just use **Log in** with the same email and password. Forgot it? Tap **Forgot password** on the log-in screen.

3 Put BBapp on your home screen

BBapp is a web app: nothing to download from the App Store. Add it once and it works like any app.

iPhone / iPad (Safari)

1. Open the invite link in **Safari**. (If it opened inside Mail, Messenger or Facebook, choose **Open in Safari**.)
2. Tap the **Share** button (the square with an arrow ↑) at the bottom of the screen.
3. Scroll down and tap **Add to Home Screen**, then **Add**.
4. From now on open BBapp from the new icon.

Android (Chrome)

1. Open the invite link in **Chrome**.
2. Tap the menu ☰ in the top-right corner.
3. Tap **Install app** or **Add to Home screen**, then **Install**.
4. From now on open BBapp from the new icon.

On a computer BBapp works in any browser. Just bookmark gfezerinac7.github.io/BBapp.

Getting the most out of BBapp

Notifications, what you can do, and help

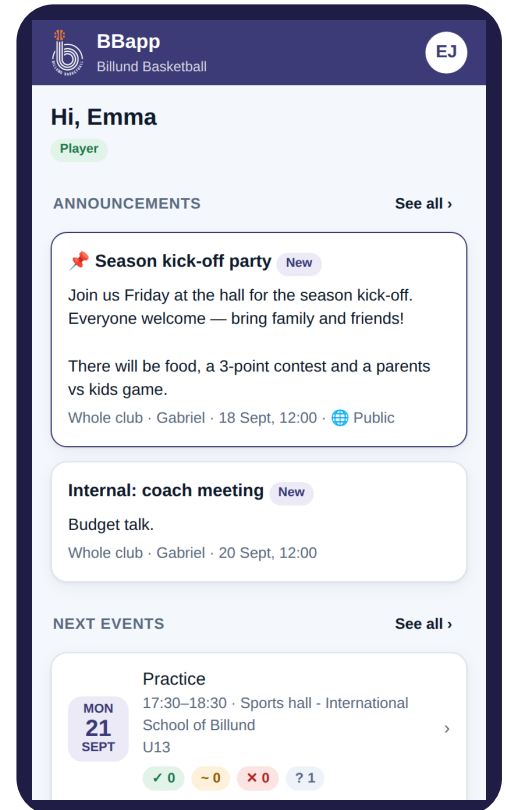

4

Turn on notifications

Get a message when a practice is moved or cancelled, when you are called up for a game and when there is a new announcement.

- Open BBapp **from the home-screen icon**.
- Tap your **initials** in the top-right corner.
- Tap **Enable notifications** and then **Allow**.

iPhone: this only works when BBapp is opened from the home-screen icon (iOS 16.4 or newer).

What you can do in BBapp

- **Answer for practices and games:** Going, Maybe, Late or Can't go, before the deadline.
- See the **calendar** of your team, venues with map links, and results.
- See if you are **called up** for a game, and sign up as a **volunteer** at home games.
- Read **announcements** from the club and your coach.
- Watch your team's **plays**, animated, in the **Teams** tab.
- Parents: answer for your child and see their calendar and fee status.

Something not working?

- **"Invite expired" or "already used"**: ask your coach for a new invite. If you already have an account, just **Log in**.
- **"This email already has an account"**: log in, tap your initials and use **Redeem invite code**.
- **No "Add to Home Screen" on iPhone**: the link opened in another app. Copy it into Safari.
- **Forgot your password**: tap **Forgot password** on the log-in screen and check your email (also spam).
- **Still stuck?** Contact your coach or the club admin who sent the invite.
